The world's best value automatic business card cutters.

The 2nd Generation DoubleCut Pro business card cutters designed for all kinds of card production. The DoubleCut is a breakthrough in value for production of business cards, and various sizes of compliment cards and photos. The machine is so easy to use that only a few minutes of user familiarization are needed. All the dimensional adjustments are accessed via push buttons with LCD readout. These clever machines also incorporate a mark reader to automatically compensate for printer shift - a feature usually only found on machines that cost 10 times as much! ***Amazing features for an outstanding price***

Technical Specifications for X-Press OnDemand® DoubleCut Pro*

- Computer chip controlled, change format at the touch of a button, no tools needed!
- Five standard card sizes pre programmed
- Adjustable first cut length and for follow on cuts to take into account image drift, unique on this class of machine
- Standard fitment mark reader for automatic self adjustment onthe-fly for compensation of variable image drift (a feature only found on machines costing 10 times more)
- Adjustable gutter cut length and card length by up to +-2 mm for custom length cards. Adjustable first and follow on cuts by up to +-2mm. Width and side slitting width, done via the keypad
- Handles card stock from 180 gsm to 350 gsm
- Feeds most kinds of stock, special feed rollers and separator ensure no double feeds even with matt coated papers*
- Feed tray holds 1 cm of paper, self compensating for paper density and thickness
- Dimensions A4 740(h) x 600 x 605mm (including cabinet)
- Adjustable card reception tray for shorter and longer cards
- Cabinet included for catching waste cuts and portability
- Cutting precision better than 0.2 mm
- Long lasting slitter wheels and cross cutter blade stay sharp for more than 100000 cycle
- Replacement of rotary blades is quick and easy
- Light weight, easily transported to point of use
- Small space requirement. Fits virtually anywhere, very quiet operation, cutting area fully guarded with interlock

* Specifications subject to change without notice, omissions and errors excepted, not all substrates may be suitable
